

**FRA Senior
Staff TTC
visit & tour
September
15, 2009**

▲ FRA Administrator Joseph Szabo addresses a crowd of FRA Regional Safety Directors and others before touring TTC on September 15, 2009.

◀ FRA Deputy Administration Jo Strang and Administrator Szabo tour the FRA's Passenger Rail Services Building and react to how crash energy management test and research at TTC has brought about safer vehicle design options for railway passengers in the U.S.A.

Kari Gonzales (w/bullhorn) explains research on Coupler and Truck Castings; i.e., projects that enhance safety on railroads, to Deputy Administrator Jo Strang, Administrator Joseph Szabo, and FRA's Regional Directors as they stand just outside of the Rail Dynamics Laboratory.

A FRA senior staff member stands near SERTC's training derailment while touring TTC September 15, 2009.
